Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art of record to Brown fails to teach or suggest each and every feature of interrupting or restarting a task and/or does not store or select partial results. Brown does not suggest interrupting a first search task in progress, performing a second search task, and then continuing to perform a first search task in a single searcher; and as interrupting a first search task in progress, storing state information for the first search task, and subsequent to performing a second search task, continuing the first task using accessed state information as in claim 11; and as storing partial results for a first task, and reselecting those partial results from a first storage element before returning to a first search task as in claim 12, and similarly to claims 14-15 and 17-18. Brown further is silent on features of modified claim 20 and as in claims 29-31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
